

SOLUTION BRIEF

Hazardous Area Monitoring and Lone Worker Safety Solution

aegex10 + SafetyAware

By Aegex Technologies and Aware360

Introduction

Aware360's SafetyAware solution is for employers and Health & Safety Managers who need to ensure their employees are safe, especially in hazardous or remote environments. Ensuring a guaranteed response, the Real Time Response Center receives alerts, communicates with the employee, and follows the configurable emergency response procedure.

- ✓ Real time location awareness ensures employee safety
- ✓ Check-in functionality reduces wasted time
- ✓ Ability to set hazard zone timers in high risk areas
- ✓ Non-emergency assistance for less severe situations
- ✓ Instant SOS alerts allow for immediate response

Complying with Alberta's Lone Worker Legislation

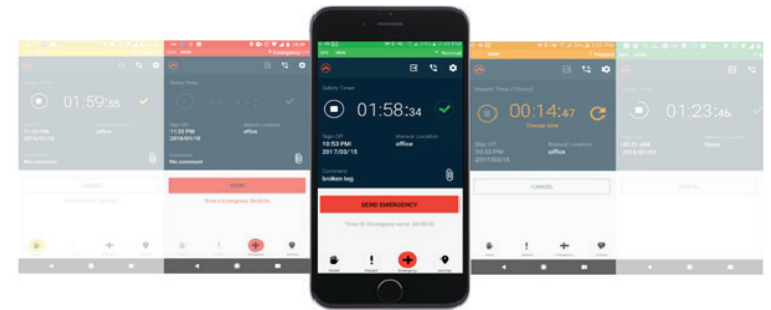

In Alberta, employees who work alone must be protected and follow rules laid out in Part 28 of the Alberta Occupational Health and Safety Code. Specifically, employers must “ensure workers have an effective means of communication between the worker and persons capable of responding to the worker’s needs in case of an emergency” and “regularly contact the worker at intervals appropriate to the nature of the hazard associated with the worker’s work”.

With SafetyAware you can rest assured your lone workers will be protected while staying productive, and your organization will be in full compliance with lone worker regulation.

Aware360 App Features:

- ✓ **Safety Timer:** Employees who do not check-in before the timer runs out will trigger an alert.
- ✓ **Assist:** Ask for non-emergency assistance (ie: flat tire).
- ✓ **Hazard:** Set a timer when entering a hazardous environment, will trigger an alert if not ended before the times out.
- ✓ **Emergency (SOS):** Sends an immediate SOS alert to the Response Center.
- ✓ **Ability to send photos & videos** to the Response Center.

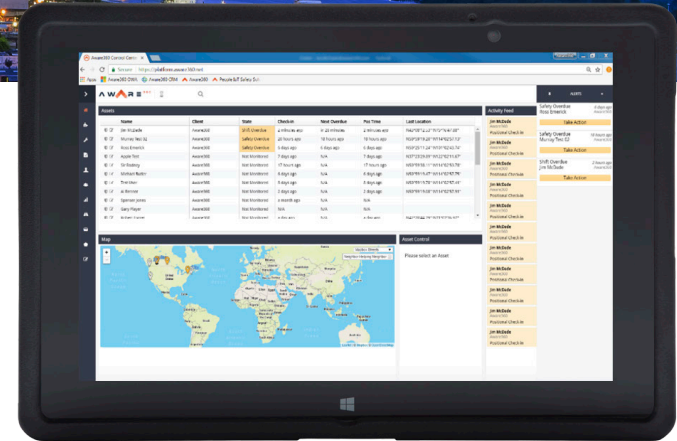

aegex10™ Features:

Remote or lone workers and their team managers must have suitable devices for receiving and disseminating data and conducting communications. The aegex10 Intrinsically Safe Tablet is purpose-built to perform these functions in hazardous environments.

Aegex10 Intrinsically Safe Tablets are certified for the most explosive of environments - Class I, II, III Division 1 or ATEX/IECEX Zone 1 hazardous areas - so they will not cause an explosion in volatile situations where gases, dusts or other combustible materials are present. The tablets are also ruggedized to IP65 standards to withstand extreme temperatures, drops/impacts and water or particle ingress. Their Windows 10 OS allows for user-friendly operation and immediate, secure synchronization with most IT systems for easy data management. The tablets connect to the Cloud via LTE or WiFi or can be interact offline via Bluetooth and NFC communications.

Mobile supervisors and their teams can carry the lightweight aegex10 tablets by hand or in hands-free carrying cases in hazardous areas without fear of igniting the volatile atmosphere, while having access to the Aware360 Lone Worker Command Center wherever they are. The tablets enable teams to communicate in real time for up to 12 hours on a single charge, and they can be operated with or without a stylus and/or gloves in the extreme environment, where high temperatures, water, airborne particulates and other hazards are present. The Aegex tablets ensure all personnel are connected and able to securely communicate at all times

- ✓ **Intrinsically Safe C1D1, ATEX/IECEX Zone 1**
- ✓ **4G LTE, WiFi, Bluetooth, GPS**
- ✓ **IP65, -10°C to +50°C operating temperature**
- ✓ **12-hour battery, 2.16 lbs**

Contact Aegex to learn more.

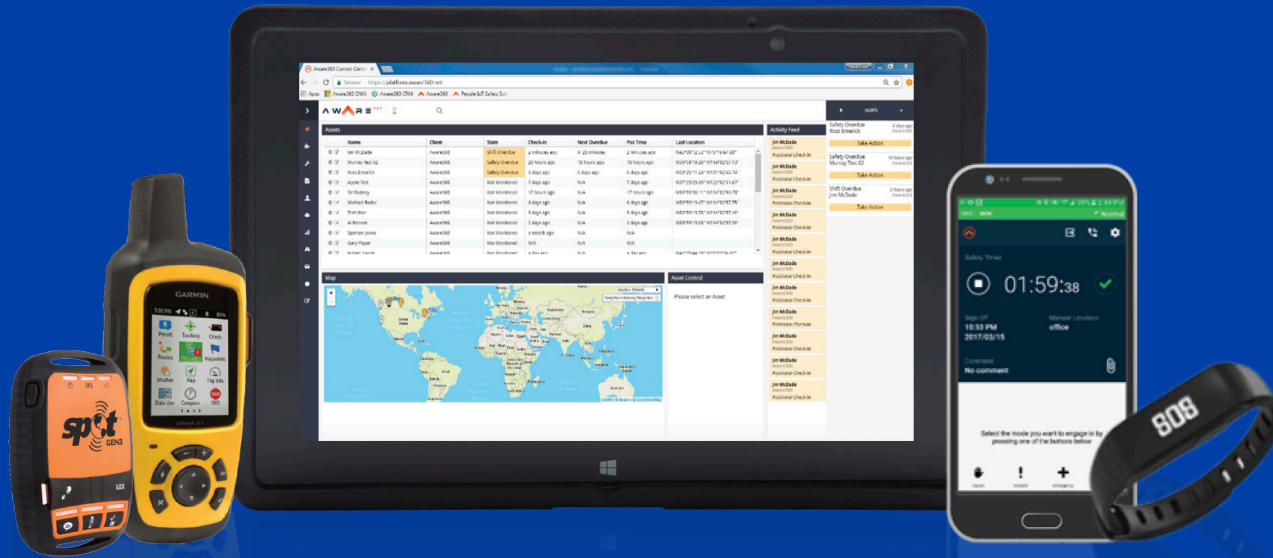

Aegex delivers innovative solutions that drive improved performance for industries with hazardous environments. Our globally certified intrinsically safe tablet provides cloud connectivity to personnel working in some of the world's most volatile environments in public safety, oil and gas, chemical, pharmaceutical and other industries with potentially explosive atmospheres. The tablet can work in conjunction with our NexVu IoT Solution of sensor modules and cloud services to form an Industrial Internet of Things (IIoT) that improves safety, efficiency and productivity in hazardous operations.
